

### ***Bed Bug Preparation List***

Bed bug preparation instructions below. Please follow these instructions to ensure best possible outcome of our treatment. Basically remove EVERYTHING from the rooms to be treated except the furniture.

- 1.) Remove all bedding from bed and place in a large plastic bag. Launder bedding the same day as the treatment.
- 2.) Remove all curtains from the windows. Launder the curtains the same days as the treatment.
- 3.) Bag ALL clothes. Launder the clothes the same day as the bed bug treatment or AFTER but not before.
- 4.) Remove all items under the bed and put into plastic bags or sealed containers.
- 5.) Dismantle the bed and place mattress and boxsprings against the wall.
- 6.) Have as much of the floor space accessible as possible.
- 7.) Remove the floom heater covers (if applicable)
- 8.) Empty dresser drawers under the bed
- 9.) Take all personal items off of and empty the dressers, night stands, floors and put in plastic bag Or tote with lid.
- 10.) Empty closets and put in plastic bags
- 11.) All large pieces of furniture must be pulled at least 2 feet away from the baseboards in every room that is to be treated.
- 12.) Vacuum the floor, bed, bed frame, baseboards and all the upholstered furntinure.
- 13.) Plan on vacating the treated area or room for 4-6 hours.
